Takes Fewer Eggs...
To Pay Today's Telephone Bill

"I operate a chicken farm," a customer told us not long ago, "and like many others my income is a lot bigger now than it was in 1945. On the other hand, many things I buy have gone up in cost.
"But my telephone service is an exception. Telephone rates have gone up far less than the prices of other things." So it takes fewer of the eggs we produce to pay my telephone bill.

Another important thought: The number of Southern Bell customers in Mississippi has more than doubled since 1945. You can get a lot more people and they can call you

... Service is faster and better. It all adds up to the biggest package of value in our 66 years in the state.

155 New Telephones Every Working Day in Mississippi

Southern Bell workers in Mississippi are installing new telephones at the rate of 1 every 3 minutes: 155 of them for the average working day... Year by year, expansion and improvement makes everyone's telephone more valuable—makes telephone service play an ever-increasing role in the prosperity and security of our state and nation.

at the lowest possible cost

TELEPHONE AND TELEGRAPH COMPANY

COLLEGE SLATES RESEARCH GROUP

STATE COLLEGE, Miss.—An ambitious research program, calling for the expenditure of more than \$1,500,000 during the 1952-53 fiscal year, has been authorized for Mississippi State College, president Fred T. Mitchell has revealed.

About 100 members of the faculty and staff will work on the projects, which are primarily in the fields of agriculture, engineering, business and general faculty research. The cost will be paid by state and federal appropriations, private grants and contracts, government research contracts and gifts.

A major portion of the research funds will be used for 510 agricultural projects ranging from pasture fertility to the diet of farm families. The agricultural experiment station will direct the studies, which are in the fields of agricultural economics, agricultural engineering, agronomy, animal diseases, entomology, forestry, home economics, horticulture, plant pathology, poultry and sociology and rural life.

Engineering research station staff members will be seeking new facts about highway materials, the effect of wind on ocean waves, high voltage electrical equipment, micro-wave antennas, and the air flow over an airplane wing at low speeds. The last study named is sponsored by the Office of Naval Research.

The business research station will give special attention to increases or decreases in business activity with results published monthly in the Mississippi Business Review, analyses of the availability and efficiency of Mississippi's labor, the adequacy of hospital and medical facilities, and statistical studies helpful to the state's industry.

HONORABLE BOARD OF SUPERVISORS
HANCOCK COUNTY, MISS.

GENTLEMEN:
I wish to state that when I came to work in the Clerk's Office, I was employed by Mr. A. C. Mitchell, who came to my house and asked me to accept the job of Deputy Clerk in his office.

My salary was fixed by him and it was my understanding that I was to be paid by him. Later it was increased because of taking on additional work.

By no request of mine, a portion of this salary was then passed on to the Board. I object to this as it subjects me to possible dictation on the part of those members of the Board who may have antagonistic views to mine, and I sincerely believe to Mr. Mitchell's. For this reason, I wish to be taken off the Board's payroll, and if Mr. Mitchell wishes to continue employing me, to put me back on the status of his employee.

My present salary was increased and is now \$155.00 per month, and of course I expect to continue to receive this amount.

Regardless, if I am employed in the Courthouse, or not, you gentlemen must realize, that I will have access to the meetings and all public records, as a citizen and taxpayer of Hancock County.

I appeared before you this morning, and asked that you take my name off the minutes of the Board of Supervisors, as I do not care to be subject to six bosses, possibly many of them pulling in opposite directions.

Mr. Mitchell, as I stated before, was elected on a good government ticket, and as long as I feel that he continues in that line, I will not resign and continue working for him. Please give this your prompt attention, and I beg to remain

Very sincerely yours.

(Signed) **BARBARA A. SICK**

I left the meeting still employed by Mitchell and went to lunch, believing in his personal integrity.

When I returned, Mr. Mitchell came into the office and asked me to resign. This I refused to do. He said then "due to pressure of the Board," he would "have to terminate my services," either as of then or at the end of the month.

I phoned Miss Carmichael and she came over and Mr. Mitchell repeated this. I told him I would go then.

When A. C. Mitchell fired me, I asked for a statement in writing as to why I was fired (since he said he would have to terminate my services due to the pressure of the Board); but he refused to give me written statement of dismissal but said he would give me a Recommendation Letter, which I wouldn't accept.

I am printing this statement to those in favor of good government

NATIONAL EDITORIAL ASSOCIATION

Subscription Price: \$2.00 per Year, in Advance

Entered as Second-Class Matter at the Postoffice at Bay St. Louis, under Act of March 3, 1879.

OUR FOURTH YEAR

With this issue, the Hancock County Eagle begins its fourth year of publication. There's an old saying that "the first hundred years are the hardest"—well, we are a long way from the hundred, but we do feel that the hardest part is past, and with the continued cooperation of our good friends, our subscribers and our advertisers, for which we shall ever be grateful, we will continue to grow and succeed.

Although we fully realize the power of the press to force issues, we have never used this power politically or otherwise, nor for personal gain—instead we have used and will continue to use this power for the betterment of our community and for the welfare of our fellow citizens.

It has been our policy to publish the news, for the benefit of our readers, as it happens, without bias or favoritism to anyone, but with fairness to all concerned. We believe that this, and our earnest desire to serve the public in every way, have been responsible for our success, and we shall continue to follow these simple rules.

We again want to thank our readers and advertisers for their cooperation, which has made our success possible.

WHITE CALLS FOR ADDED SALES TAX

JACKSON—Gov. Hugh White said he believes Mississippi could finance the equalized education program and provide funds for selling city government with a one-cent increase in the present two-cent state sales tax.

He said he did not know what financial recommendations will be made by the joint legislative committee now studying the matter but said he believes "we could get \$26 million additional revenue every two years from an increase in the sales tax."

White said he figured \$20 million of that would be sufficient to add to present education appropriations to take care of equalizing teachers' salaries as well as construction of Negro schools.

However, he said he would oppose a state bond issue to give Negroes equal physical plants with the white system. "We should pay for the schools as we get the money to build them," he said.

The remaining \$6 million should be earmarked for the municipalities because I have definitely promised them some aid," he said.

The education committee had been created in a compromise between White and legislative proponents for an immediate program to equalize teachers' salaries during the session of the Legislature this year.

Mississippi Is Largest Producer Of Tung Nuts

Mississippi produces more tung nuts than any other state, and production is gradually increasing, according to the report of the US Department of Agriculture, released by D. A. McCandless, Agricultural Statistician in Gulfport.

In 1951, Mississippi produced 32,900 tons, the second-largest crop in history, and the greatest in value. The state's largest nut crop was that of 1949, when 43,600 tons were produced. Growers received an average price of \$105 per ton for air-dried nuts for last year's crop, compared with \$65 in 1949. The total value of the crop in 1951 is estimated at \$3,545,000 compared with \$2,843,000 in the year of largest production, (1949), McCandless noted.

Tung nuts are crushed for tung oil, which is used in the manufacture of high-grade paints and varnishes. The tung nut production is limited to the Gulf Coast states, and the industry has made great progress in the last ten years.

The 1952 Tung nut crop shows promise of excellent yields, although no official production estimate will be made until December of this year, McCandless observed.

It is easy to plan but more difficult to complete. Everybody plans, but few accomplish.

RCA Makes It, We Have It!

STEVENSON'S Is Now

RCA Victor Headquarters

For the entire Gulf Coast Area

Our continuous effort to bring you the best possible products at the lowest possible prices, Stevenson's proudly announces that we have joined hands with RCA Victor, the maker of proven quality equipment.

We are happy that now we can offer you — AT REASONABLE PRICES — the finest products made in the electronics field. One of the reasons MORE PEOPLE BUY RCA VICTOR THAN ANY OTHER MAKE is because they know it pays to choose QUALITY. Whichever one of the superb RCA Victor instruments you choose, you know it will be one which will give you years of enjoyment — one which you can proudly show to your friends and neighbors.

WE THINK YOU'LL BE HAPPY, TOO, when you see the new RCA Victor Television Sets.

Remember, Stevenson's is where you . . .

NOW AVAILABLE FOR THE GULF COAST AREA

Get New RCA VICTOR television...

with the Magic Monitor!

Acts like an engineer inside your set

RCA Victor Shelley (Model 177200)

for as low as \$199.95

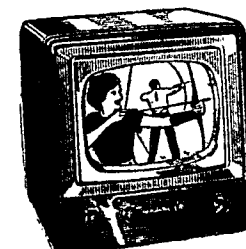

The TV show goes on . . . but here's television with an amazing difference! RCA Victor engineers, who pioneered television, again lead the industry with a great new achievement. The "Magic Monitor," a new, intricate system of electronic circuits, brings you unbelievable picture quality!

ACTS LIKE AN ENGINEER INSIDE YOUR SET

- In TV studios, engineers constantly "monitor" each program for the very best image. The electronic "Magic Monitor"

does the same job automatically inside your new RCA Victor set! . . . so the pictures you see are always the best that television can bring you.

- RCA Victor brings you television's first double-shielded tuner and a completely shielded chassis to screen out picture static from planes, cars, vacuum cleaners.
- Power is stepped up—automatically. Weak signals are amplified, brightness held constant!
- The best picture is tied to the best sound—automatically. RCA Victor, the greatest name in television, stands solidly behind every one of these sets. And remember—only with RCA Victor can you get the RCA Victor Factory Service Contract covering expert television installation and maintenance.

RCA Victor Hedley (Model 177201)

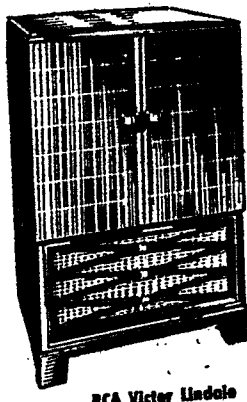

- 17-inch budget-priced beauty, engineered for years of TV enjoyment.
- Cabinet finished in deep maroon. Console base available at slight extra cost.

There are innumerable people who are ready to offer genuine friendship of the invariable kind, whom you could develop. When one first moves into a community it takes a little time to assort acquaintances and separate those whom one does not think will stick from those of kindred nature that one most enjoys. We have world of acquaintances, but few of us ever really have sincere friends, for such are rare.

To keep a room from looking gaudy, limit yourself to the use of three colors. One, a main color, one a color that blends or contrasts with it, and another to be used in smaller areas for accent. Remember to avoid too much pattern in wall paper, rug, draperies and furniture coverings. Your room will be too "restless" with so much pattern and you will find yourself restless, too, whenever you try to relax in it.

You probably will be living with this scheme a long time, so be sure you are pleased with the colors before you execute the job. A more conservative color combination will keep you happier for a longer time, but please do not be too conservative—too many house-

I do not think a "lack of liking" (which sounds so much better to us than the word "dislike") is to be confused with a lack of love. We can be in disagreement with some of the faults of others without disliking them and we can also love (in a Christian manner) someone whom we do not like. I, too, think that that was what

And the doctor follows with "Every man has faults." Will Rogers would not like you, imagine, if you are guilty of these things. Yet you can cure yourself of any of them if you will but recognize the fault and work on it.

Dr. Popenoe left out "egotism," which we think is the most difficult to overcome since very few egotists realize how much in love with themselves they are. Of course, we are all egotists, to a certain extent. It would be impossible to live so closely with our

KILN SCHOOL

WITH ENROLLMENT OF 273

Kiln School opened Friday, Sept. 8, for the coming session.

The new superintendent, Mr. William M. Simmons, addressed the student body and staff.

The pastor of the Catholic Church, Father Charles Tague, led the devotional portion of the opening ceremony.

Enrollment, totaling 273, with 115 in the high school and 158 in elementary school.

Seven of the eleven faculty members have taught in Kiln before.

The new superintendent, a native of Newton County, has a BS degree and has completed all the work for his MA with Social Science and School Administration as his majors.

Mr. Simmons has spent 24 years in school work, 10 years as a classroom instructor and 14 as superintendent.

In the vocational department, Mrs. Cornelius Farve with a BS. from Mississippi Southern, has taught Home Economics for several years.

Aubrey Penton, has a BS. in Agriculture and Education from Mississippi State and has been head of the Agriculture Department for high school students and veterans for two years.

Kiln is in a much better position to give students a good background in science this session with L. J. Bates, who has a BS degree in Science from Mississippi State, as Science and History instructor.

Mrs. Gerald Kennedy Jr. from Waveland, who holds a BA degree from Tulane, having majored in Personnel Management and Accounting, and who has a background of experience as Personnel Manager for Louisiana State Board of Health and Sears, Roebuck, and as Youth Counselor and Clerical Instructor with the National Youth Administration, is in charge of the Commercial Department.

In charge of the English Department is Mrs. George Curet, who has taught in Kiln several times before but has been out of school work for a couple of years.

Mrs. Curet has a degree from Mississippi Southern with English and Education as her majors, and has done graduate work in English and Education at George Peabody College for Teachers in Nashville, Tenn.

Another teacher who already has taught here, Mr. Linton Lee, is head of the Mathematics department.

A student at Mississippi Southern for almost four years, Mr. Lee lacks less than six weeks work of having finished the requirements for a degree with Mathematics as his major.

In the grammar school division are Miss Rosalie Lyle, with a B.S. from Southern; Miss Myrdess Martin, who attended PRC and Southern; Mr. Oscar Breland, a graduate of PRC with additional work done at Mississippi College, Keble and Southern; and Mrs. Squires, who attended Southwestern, majoring in Primary Education, and who is known locally from her previous experience here as a very good primary teacher.

KILN GIRL WINS THIRD PLACE IN FORESTRY QUEEN CONTEST

Miss Rita Farve won third place in the County as Forestry Queen Contestant.

The student body nominated Rita Farve, Inez Moran, Louise Lee, Beverly Maufrey, Lucille Lee, and Rita Trevino to represent Kiln School in the contest.

Rita Farve won first place in Kiln

KILN COMMUNITY CLUB MEETS

The Kiln Community Club met Tuesday afternoon, September 9, at the home of Mrs. Marvin Robinson.

After the opening of the meeting with a prayer by Mrs. Hein, Mrs. Griffith read the minutes of the last meeting and called the roll.

Mrs. Weston, the president, brought up several projects for the school for discussion. The club decided to give a dance and cake walk later in the fall in order to raise funds to finance the project selected.

After the business meeting, the hostess served delicious refreshments.

Club members then went to the school where they met with Mr. Simmons in the new lunchroom to inspect the work already finished and to see what needed to be done. They decided to return to the lunchroom the following day to see that the windows were cleaned and the new tile floor cleaned and waxed and other necessary work done.

SANITARY FACILITIES AT SCHOOL IMPROVED

Kiln School is fortunate to begin the new session with a decided improvement in sanitary facilities.

Lavatories have been placed in the hall before the entrance to the lunchroom for the children to wash their hands before eating.

Indoor restrooms for both boys and girls have been added to the main building.

LUNCHROOM BROUGHT UP TO STANDARD

The lunchroom was moved this summer to a wing in the main building. The walls are painted green and white, with a glass partition between the kitchen and dining areas, so that lunchroom workers can pass food through to the children as they enter and get their own plates.

The floor in the dining area is covered with black and green asphalt tile, and in the kitchen with green linoleum.

Adjacent to the lunchroom is the storeroom for supplies.

After inspecting the lunchroom with the trustees and Mr. Breland, County Superintendent of Education, John Grant, Sanitation District of Mississippi, said, "Kiln lunchroom has in the making one of the best lunchrooms in my district."

Wayne Alliston, Sanitary Inspector for the Hancock County Board of Health, said, "I am very proud of the improvement that has been made this summer in the Kiln lunchroom and in other sanitary facilities. They have been brought up to standards equal to those of other schools in the county, after having been far below standard in the past."

Mrs. Emmett Ladner is the new

ENROLL NEW MEMBERS IN CO. YOUTH COUNCIL

The following new members were enrolled in the Hancock County Council for Youth and Children at the regular monthly meeting Monday, Sept. 8:

Miss Sarah Weaver, County Demonstration Agent; Miss Patricia Carley, child welfare agent; Mrs. Fred Bourgeois, and Sister Leatrice.

Others attending were Mrs. C. C. McDonald, Miss Loyette Webb, Rev. Schuyler Batson, Rev. C. R. Schultz, Miss Mary Perkins, Mrs. J. E. Erwin, S. J. Ingram, Mrs. Eugene S. Ling, Rev. Father Ernest Hill, Genevieve Harrison, Mrs. W. J. Turner and May E. Edwards.

S. J. Ingram, superintendent city schools, brought to the group a report on a recent bill enacted by the state legislature for the establishment of a school for handicapped children. The sum of \$200,000 for the establishment of schools for handicapped children was approved.

Mississippi is the 38th state to adopt this program.

It was decided that as soon as a teacher qualified for this type of work could be secured that a school would be opened. W. R. Burris is in charge of the program.

There are no experts like the men who have no responsibilities. They apparently know all the answers.

and Mrs. Mary McLean have been visiting in St. Louis, Mo. They will leave their home in St. Louis for their home in St. Louis, Mo. on Monday, Sept. 18.

First McDonald, University of Texas, is spending a short vacation here with his parents, Mr. and Mrs. C. C. McDonald.

Miss Mary Lou Schianna was complimented at a shower given at the home of Miss Sylvia Horton, with Miss Horton and Mrs. Billy McLean as guests.

The class colors was the color scheme carried out in the decorations because the honoree was a recent graduate of Bay High.

The guest list included the faculty of Bay High—Messadmes Norman Hall, F. J. Broadus, Carl T. Smith, A. B. Dubois, J. E. Erwin, J. D. Vaughn, and Miss Julia Elsie.

Miss Carol Horton played for the group and Mrs. L. J. Taconi presided at the punch bowl.

Entertains At Shower

Mrs. Lola Rosenquist entertained at a linen and lingerie shower at her home last week complimentary to Miss Amelia Bertucci, a bride of this month.

Celebrates 10th Birthday

Eddie Jennings Morreale was ten years old Saturday, Sept. 6 and celebrated it in a big way with a party with all of his friends to help him enjoy the day.

Blue Jeans Club To Meet September 15

The Blue Jeans Garden Club of Clarendon Harbor will meet at the home of Mrs. J. Schuch in Clarendon Harbor at 2:30 p. m. Monday, Sept. 15.

"Diplomatic Courier" Plays At Star Theatre Thurs. Fri., September 18-19

"Diplomatic Courier," Tyrolean Century-Forty drama of international intrigue starring Tyrone Power, Patricia Neal and Stephen McNally will arrive at the Star Theatre Thursday and Friday, September 18-19.

Exotic Patricia Neal, the star of "The Day The Earth Stood Still," returns as the woman of mystery who brings danger to Power's very doorstep.

Vacationing Here

Miss Mary Kittrell is spending a two week's vacation with her grandmother, Mrs. W. A. McDonald.

Miss Kittrell will return to the Children's Center of Metropolitan Detroit where she will remain a staff member after the completion of her internship.

Miss Kittrell took her B.A. Degree at Randolph Macon College for Women and her Masters from the University of Mississippi.

Miss Kittrell is the daughter of the late Mrs. Mary McDonald Kittrell of Bay St. Louis and Dr. John Moore Kittrell of Jena, La.

She is a graduate of Bay St. Louis High School and was valedictorian of her class. She was a member of Bay High Faculty for two years.

BRUCE CAMPBELL DIES IN PLANE CRASH YESTERDAY AT JACKSON

Bruce Campbell, 48, District Airport Engineer for the Civil Aeronautics Administration, died yesterday of injuries and burns received when the small plane he was piloting crashed shortly after takeoff from the Jackson airport.

John H. Tompkins Jr., City engineer of Greenville, who was a passenger in the plane, is in an extremely critical condition.

The plane, which took off from the airport about 2 p.m., circled the city and crashed when the motor apparently died.

Campbell was well known here, having been active in the establishment of the Bay St. Louis-Hancock County Airport. He was here Aug. 31, helping great members of the air trust which visited the local airstrip on that date.

Robert Brown, church clerk; A. H. Gregory, treasurer; Mrs. Karl Ramsey and Mrs. M. A. Hill, deacons; Miss Mary H. Edwards, deaconess; Kenneth Whitfield, superintendent Sunday School; Mrs. Turner Murray, Training Union Director; Mrs. M. J. Neccaise Jr., Cradle Roll and Nursery.

Bridge and Canasta Party

Mrs. August Raunet Sr. entertained on Wednesday at a bridge and Canasta party complimentary to her niece, Mrs. George Schminke of New Orleans who is spending a short stay in Bay St. Louis.

Mrs. Raunet's guest list included Messadmes Rosa Sigerson, Charles G. Moreau, Juliette Zachary, Clemence Chadwick, Miss Elsie Spori and Miss Vickie Gex.

Visit FHA Office

Visitors to the Farmers Home Administration office last week were Charles Deapton, State Administrative Officer; Miss Nova Spatt, State Home Management Supervisor, Mrs. Merle Moore, Administrative Assistant, D. C. Vandeverre, chief of the Loan Division, J. L. Richmond, secretary, service division and C. J. Burrill, Hancock County Supervisor.

The visitors were gratified at the work covered in this country and complimented the office highly on its accomplishments.

When resolutions and proclamations run crosswise to human nature, they come to a dead end.

THREE PERSONS WERE KILLED WHEN AUTOMOBILE HIT STATE PATROL CAR

Three persons were killed when the automobile in which they were riding overturned after striking a parked State Highway Patrol car about 3:40 p. m. Thursday near Bay St. Louis.

The driver of the car, Francis H. Habighurst, 540 S. Main Street, New Orleans, was killed.

Miss Mary H. Edwards, deaconess of the church, was killed. She was given emergency first aid at King's Daughters Hospital in Bay St. Louis before removal to Biloxi, while the other man was treated and released at King's Daughters.

Assigned to Patrolmen R. E. Blackwell and Cecil W. Hinton, the Patrol's 1951 Pontiac was parked off the pavement on the south shoulder near the intersection of Main Street and US Highway 90, about a quarter-mile west of Bay St. Louis, the Inspector said.

At the time of the accident, he continued, Patrolmen Blackwell and Hinton were conducting a traffic check on drivers' licenses and proper equipment and had a line of about six cars backed up.

Habighurst was traveling eastward in a 1948 Chevrolet coach "at a high rate of speed," according to Inspector Wittmann, and attempted to go around the line of autos. The accident hap-

WORLD SERIES START ON OCTOBER 1

NEW YORK—The 1952 World Series will open on Wednesday, Oct. 1, in the home park of the New York Yankees.

The American League pennant was won in a tie, provided a playoff, the opening date will remain unchanged.

American League rules provide for a one-game playoff while the National League decides pennant tie in a two-of-three series.
